Frozen goat six-way cut

Product page
www.europeangulf.com/en/products/goat/goat-six-way-cut/

A whole goat carcass cut into six pieces – two legs, two saddle/rack sections and two forequarters – so that it fits in cartons and is easy to handle, portion and store. Each piece can be vacuum-packed. This format is popular with wholesalers and butchers who sell goat by the piece rather than by the carcass.
