LIVE SHEEP · LIVE ANIMALS

Texel & Suffolk-cross lambs

Product page
www.europeangulf.com/en/products/live-sheep/texel-suffolk-lambs/

Grass-fed lowland lambs from Texel, Suffolk, Beltex and Charollais terminal sires, mostly crossed on hardy ewes such as the Mule and Lleyn. They grow up on green, rain-fed pastures, which gives well-muscled lambs with deep legs, a full loin and a high meat yield. A favourite for importers and processors that want a heavy, meaty carcass. We select the lambs to your specification and arrange inspection, certificates and transport.

Specifications

Category	Live sheep
Presentation	Live animals
Condition	Live animals
Origin	Confirmed per order
Breeds	Texel, Suffolk, Beltex, Charollais and their crosses on Mule, Lleyn and other hardy ewes
Appearance	Texel: white face, broad muscular body; Suffolk: black face and legs; crosses often with a speckled face; dense medium wool
Meat & carcass	Heavily muscled with deep legs and a full loin; high meat yield and lean carcass – grass-fed taste
Hardiness & climate	Raised outdoors in mild, wet climates; for hot destinations plan shade, water and a short adaptation period
Supply	Lambs and young rams for fattening or slaughter, and breeding ewes on request; weight class, age, sex and number of heads agreed per request

Health & certificates	Veterinary inspection, tests, vaccinations and export health certificate according to the destination's requirements; transport by truck or livestock vessel
Delivery	Live animals are traded separately from meat. Veterinary, transport and welfare requirements are checked for each destination.

Frequently asked questions

Merino or Texel-cross – which should I choose?
Texel and Suffolk crosses give a heavier, meatier carcass; Merino-type lambs are lighter, very hardy and cope better with heat and long transport. Tell us the purpose and destination and we advise.
